WORK EXPERIENCE

● Javascript Developer

PROJECT WORK   2021 to 2023

Worked on websites that mostly used react and APIs for added functionality. This included a face recognition website, a sudoku solver and a pokedex site. More details can be found at https://kennymcgeoch.github.io/simplefolio/

● Document Service Operator

CANON   2015 to 2021

Worked on inbound and outbound document services for Aegon, Hertz and Gloucester City Council. I also provided improvements to the work processes that allowed for increased amounts of automation allowing us to deliver cost savings to the client.

● Operator

WILLIAMS LEA   2011 to 2014

Used bespoke software as part of a team handling of insurance claims for RSA. During my time working on the contract it was extended for a further 7 years as the client was very happy with our work.

EDUCATION

● Bsc Chemistry (hons)

EDINBURGH UNIVERSITY   2002–2006

SKILLS

| Javascript ES6 | CSS3 | HTML5 | React | Node JS | Github | PostgresSQL |
